# About us

We are a System Integration company covering voice, data & video technologies, founded in Merida, Yucatan in 2004. Tarconis started a consortium of integrators that covers today the major cities of Mexico, allowing us to run projects nation-wide.

## **Our Mission**

Integrate, optimize and evolve our customers' communications systems, in order to achieve an optimum performance that results in cost reductions and business growth with modern technologies.

## **Our Experience**

We count with personnel with over 20 years international experience. Partnered with world-class companies, we offer a broad portfolio of products & services, that guarantees our customers' satisfaction.
